

FACT SHEET

What is Erasmus for Young Entrepreneurs?

Erasmus for Young Entrepreneurs is a pan-European mobility scheme for entrepreneurs initiated by the European Union in 2009. The programme aims to offer opportunities to aspiring or newly established entrepreneurs to go abroad within Europe, to develop their entrepreneurial competences in running a small business with a host entrepreneur.

The programme aims to reinforce entrepreneurial attitudes and equips individuals with skills and competences invaluable for their future or newly established business. It also helps host entrepreneurs reach new markets and develop their business thanks to innovative ideas or techniques of which some can be materialised in new products or services.

Erasmus for Young Entrepreneurs has been developed within the framework of the [Small Business Act \(SBA\)](#) for Europe which considers this programme as a key contribution 'to create an environment within which entrepreneurs and family businesses can thrive, and entrepreneurship is rewarded'.

Who can participate?

New entrepreneurs and host entrepreneurs from across Europe and from Liechtenstein, Norway, the Former Yugoslav Republic of Macedonia, Iceland, Montenegro, Turkey, Albania, Serbia and Israel.

New entrepreneurs are defined as:

- Would-be entrepreneurs, who are firmly planning to start their own business based on a concrete project reflected in a substantiated business plan;
- Newly established entrepreneurs in the early stages of their business start-up (less than 3 years of experience in running a business);
- Whether planned or already existing, the business can be in any sector.

Host entrepreneurs are defined as:

- Successful and experienced entrepreneurs with at least 3 years of experience in running a micro, small or medium-sized enterprise (SME);
- Owners of an SME ([according to the EU definition of SMEs](#)) or people directly involved in entrepreneurship at SME management board level.

There is no age limit for participating in the programme.

What are the benefits?

Erasmus for Young Entrepreneurs is a win-win deal for both new and host entrepreneurs.

New entrepreneurs will benefit from on-the-job training in a host company abroad to develop their entrepreneurial skills and gain business knowledge and experience on managing a small business.

Host entrepreneurs will benefit from innovative ideas from a motivated new entrepreneur. Moreover, this opportunity may also lead to other benefits such as the internationalisation of the business, access to new markets and possibilities for collaboration with new business partners.

How does it work?

New entrepreneurs spend time abroad within an EU Member State or participating countries, where they will collaborate with their host entrepreneur.

The duration of the stay varies from one to six months. To provide entrepreneurs with more flexibility, the exchange can also be divided into slots of minimum one week each, spread over a maximum of 12 months.

The process of applying is divided into four phases and facilitated by intermediary organisations:

1. The application phase: whereby eligible candidates apply online www.erasmus-entrepreneurs.eu;
2. The matching phase: whereby the entrepreneurs initiate their collaboration and discuss the activity plan;
3. The contracting and preparation phase;
4. The implementation phase.

Financial support is provided to new entrepreneurs by the programme to contribute towards travel (to and from the country of the stay abroad) and subsistence costs.

There is no deadline to apply for the programme.

Who facilitates the programme?

A wide range of [intermediary organisations](#) have been brought together to organise the exchange between the entrepreneurs.

The European Commission and the Executive Agency for Small and Medium-sized Enterprises (EASME) bear the overall political and financial responsibility.

[EUROCHAMBRES](#), the European Association of Chambers of Commerce and Industry, acts as support office for the Erasmus for Young Entrepreneurs programme, providing guidance and support for the intermediary organisations and entrepreneurs.

The programme in numbers

Since its launch in 2009, the scheme has seen a constant increase in the number of applications from new and host entrepreneurs willing to take part in the programme with nearly 10,000 registrations received so far.

After 5 years of existence, the programme shows good results with nearly 6000 entrepreneurs (new and host) who took part in the mobility scheme.

Up to know nearly 3000 exchanges between new and host entrepreneurs have already taken place.

The brochure showcasing the positive impact of the programme on the European economy after 5 years of existence is available [on here](#).

More success stories are available [on here](#).
